EXPERIENCE

COMPANY COMMANDER — DELTA TROOP, JOINT COMMUNICATIONS SUPPORT ELEMENT

June 2013 – Present — Tampa, Florida; Joint Base Pearl Harbor Hickam, Hawaii; Afghanistan

- Commanded 25 specially selected and highly experienced Non-Commissioned Officers from the Navy, Marines, Army, and Air Force who deploy in cross-functional teams around the globe. Managed a total of 8 General Dynamics contractors and 4 U.S. government workers.
- Planned overseas missions and deployed specialized teams to 7 separate countries around the globe, most notably missions in Syria, the Philippines, and the Ebola Crisis mission in Liberia.
- Officer in charge of the Commander's Deployable Joint Command and Control (DJC2) enterprise network system for both U.S. Southern Command (USSOUTHCOM) and U.S. Pacific Command (USPACOM). Managed the establishment of a transitive trust relationship between USSOUTHCOM's enterprise network and DJC2 Core 1's enterprise network. Managed troubleshooting of all OSI layers within the enterprise network as well as the external paths out the transmission medium (satellite or cable), to a DoD teleport site, and to cloud services.
- Continually programmed VBA macros for Excel in order to track progress of projects and objectives of the organization as well as administrative needs. Programmed PDF files with embedded JavaScript to create an adaptable checklist, fitting to the organization's varied mission set.
- Second in charge of Special Operations Joint Task Force communications to include secure radios, enterprise level servers, satellite transmissions, and manned and unmanned aerial vehicles in all of Afghanistan. Programmed GUI for HDBaseT Matrix Switcher. Innovated a classified groundbreaking project involving Special Operations ground and air forces utilizing smartphones, backend servers, and secure transmission methods.

EXECUTIVE OFFICER — 552ND SIGNAL COMPANY, U.S. ARMY

June 2012 – June 2013 — Camp Red Cloud, South Korea

- Managed 120 personnel to include South Korean National Workers, Korean Augmented Soldiers, U. S. government workers, and Active Duty U. S. Army Soldiers.
- In charge of the maintenance and operation of all military strategic computer and telephone network operations north of Seoul, encompassing 700 square miles and a property book value exceeding \$60 million. Responsibilities involved maintaining communications to over 11,500 customers, including the Commanding Generals from 2nd Infantry Division, 8th United States Army, and United States Forces Korea.
